Homework #39 – Multi-Step Percents Day One

1) Joan has a coupon for an additional 25% off the price of any sale item at a store. The store has a pair of shoes on sale for 15% off the original price of $40. How much does Joan pay for the shoes?

2) A sign says that the price marked on all makeup is 30% off the original price. Alyssa buys a cosmetic kit originally priced $125. The store charges an 8.5% sale tax. What is the final cost of the cosmetic kit?

3) At a clearance sale, Zoe bought a jacket that was marked down 60%. The regular price of the jacket was $89. There was a 7% sale tax. How much did Zoe pay for the jacket?

4) A clothing store is having an anniversary sale. Every piece of clothing in the store is marked down 15% with an additional 25% off. What is the sale price of a belt that has a regular price of $23?
