Mr. Tallman

**Homework 41 – Commission**

**SHOW ALL WORK FOR EACH PROBLEM.**

1) Sam receives a 9% commission on appliances he sells. Last month, he sold \$18,500 worth of appliances. How much did he earn last month?

2) Bella earns a 15% commission on the furniture she sells. How much commission would she earn if she sells a dining room set for \$850?

3) Emily earns \$75 per day plus a commission. Her commission is 15%. She sells \$600 worth of furniture on Tuesday. How much did Emily earn in total on Tuesday?

4) Peter is a real estate agent. He earns a 6% commission on each house he sells plus \$500 per week. If Peter sold a house last week for \$325,000, how much money did Peter earn last week in total?
